Submit

Cancel

Card Number and PIN will be displayed on the screen.

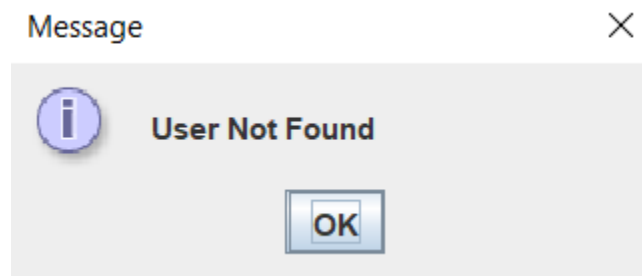

## 2. Signing In

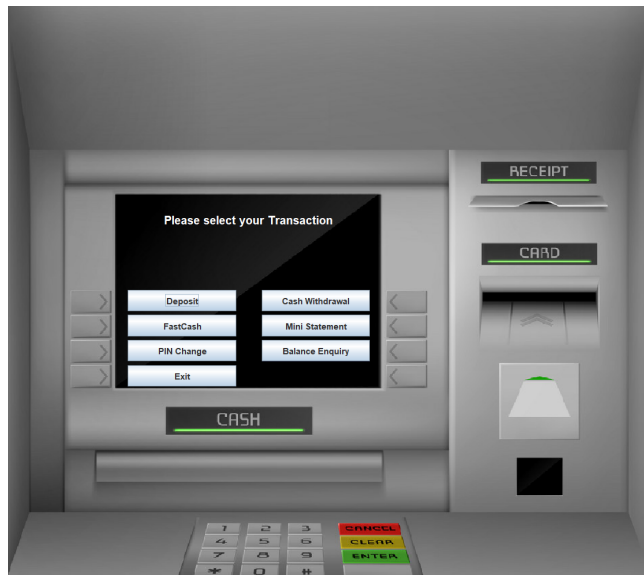

Enter the Card Number and PIN. Click on "SIGN IN".

The image shows a web application window titled "Automated Teller Machine" with standard window controls (minimize, maximize, close). The main content area has an orange bank icon on the left and the text "Welcome to ATM" in a large, bold, dark font. Below this, there are two input fields. The first is labeled "Card No." and contains the text "5040936005100377". The second is labeled "Pin" and contains four asterisks "\*\*\*\*". Below the input fields are three buttons: "SIGN IN" and "CLEAR" are side-by-side, and "SIGN UP" is centered below them. All buttons are black with white text.

If the card details are wrong, you will get a "USER NOT FOUND" pop-up.

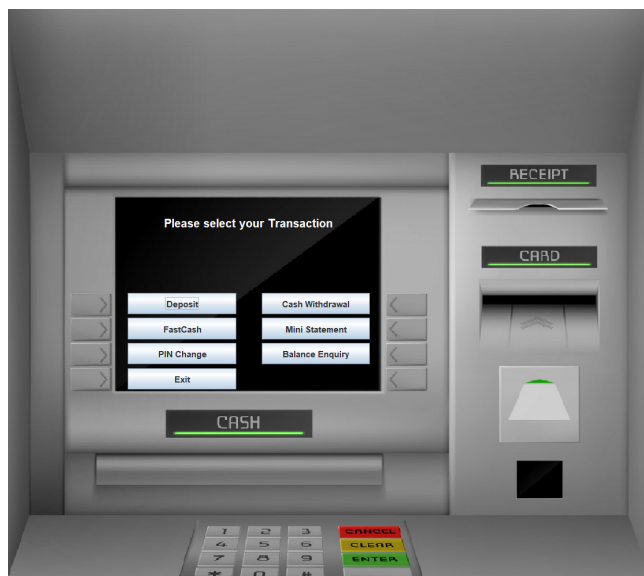

If the card details are correct, you will be logged in to the ATM simulator.

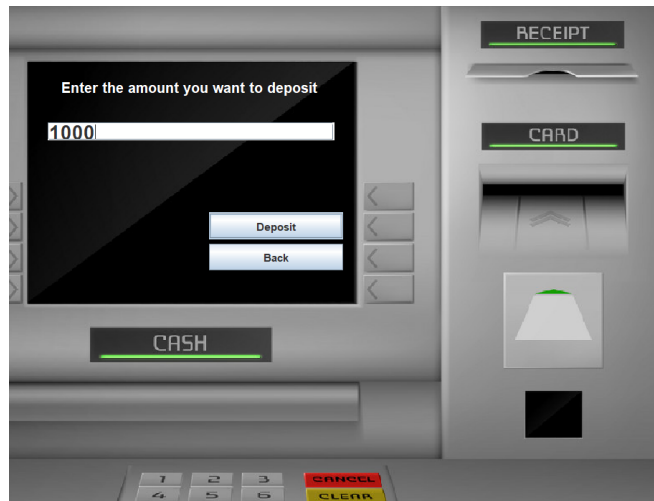

### 3. Deposit

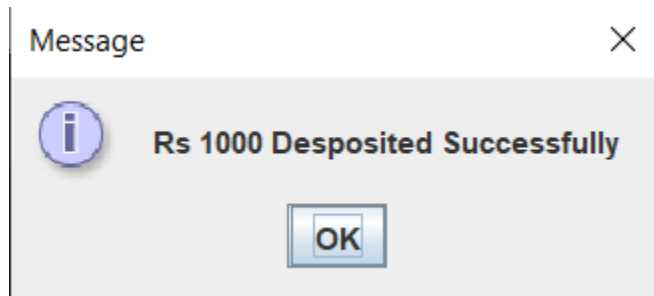

Click the “Deposit” button.

Enter the amount to be deposited. Click the Deposit Button.

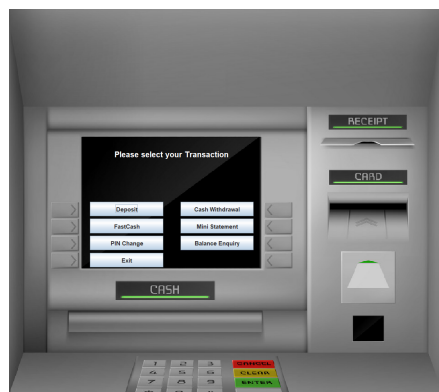

Amount will be deposited successfully.

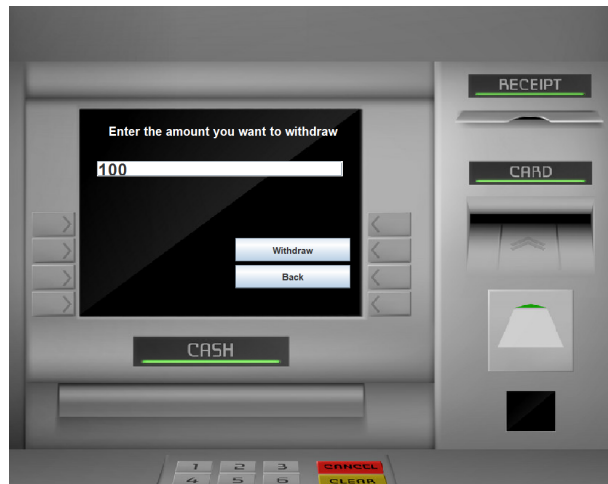

## 4. Withdrawal

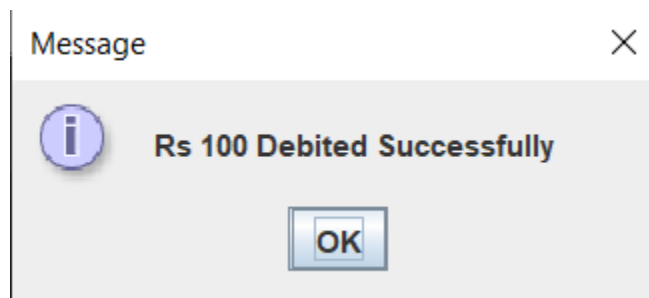

Click the "Cash Withdrawal" button.

Enter the amount to be withdrawn. Click the “Withdraw” button.

Amount will be debited successfully.

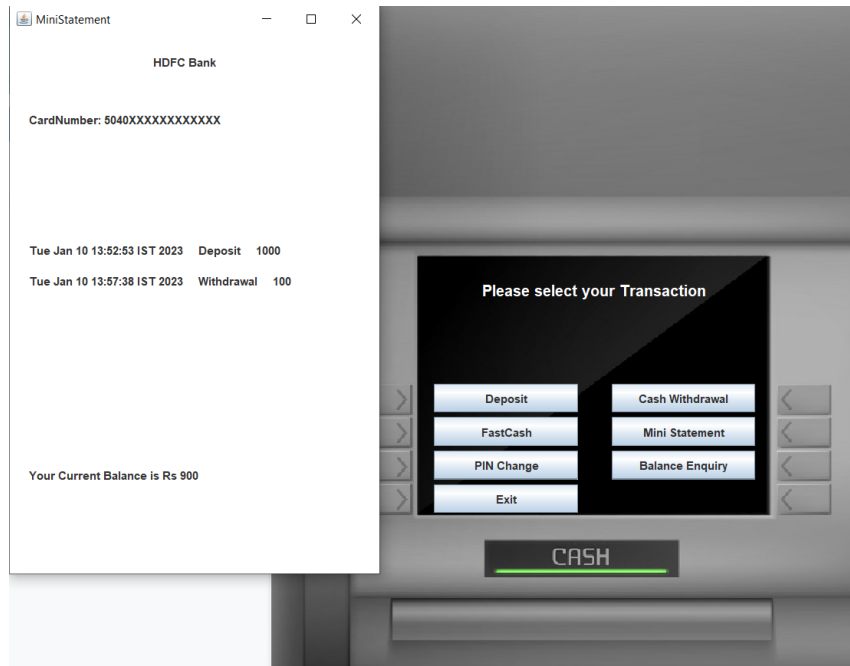

## 5. Mini-Statement

Click the “Mini Statement” button.

Mini Statement of the account will be generated.

## **IMPORTANT POINTS**

1. Rest of the features like PIN Change, FastCash, Balance Enquiry and Exit are coded and working properly.
2. Some validations like empty fields, negative amount, etc. ,are not coded yet.
3. MySQL Workbench can be used for creating the local database.
4. Separate file is uploaded for all the SQL queries and checking the database name and table names.
